

ASSIGNMENT 2

Our Guiding Star is:

An efficient implementation of the Ecological Solid Waste Management Act in the Philippines.

Our Near Star is:

Develop an adaptive approach to spark a mentality shift in Filipinos on the importance of implementing the Ecological Solid Waste Management Act at a household or community level.

Our Framing Question is:

What are the factors involved in shaping the current Filipino mindset on waste management and what are the current realities that Filipinos face which could hinder or serve as entry points in the development of an approach to shift mindsets?
